

THE IMPORTANCE OF SANITATION & HYGIENE

SHAP CONNECT

001 - 10 -25

In today's generation, hygiene and sanitation is important most especially in school environments to avoid the spread of possible diseases and to improve the well-being of students, both physically and mentally, for better classroom participation and attendance. Sacred Heart Academy of Pasig (SHAP), is not only known for academic excellence and values formation, continues to prioritize the health and safety of the students, faculty, and staff through the implementation of rigorous precautionary and sanitation measures.

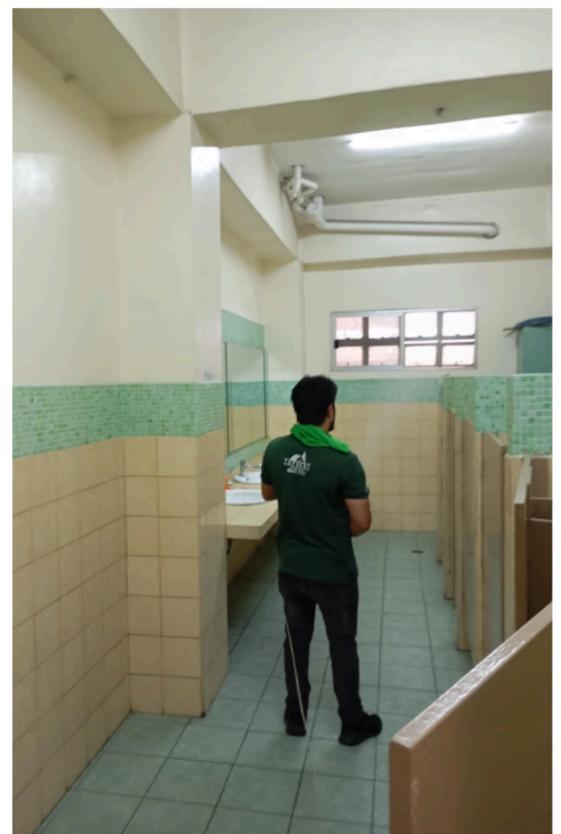

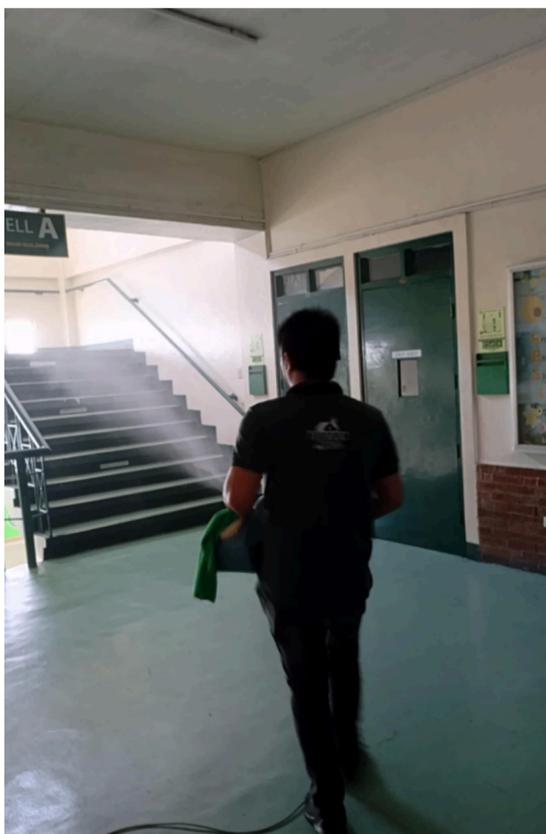

SACRED HEART ACADEMY OF PASIG

Integrity . Excellence . Service

MONTHLY FUMIGATION

Safety protocols are implemented through a third-party contractor across all facilities. To eliminate pest and other harmful microorganisms, contributing to a clean and healthy environment.

CLEANSING AIR CONDITIONING UNITS

Every two months, air-conditioning units in classroom are checked and cleaned to make sure clean air is maintained.

SACRED HEART ACADEMY OF PASIG

SANITATION SERVICES

Air conditioning filters are also being cleaned once to two times a day, ensuring comprehensive sanitation of all classrooms.

UV LIGHT DISINFECTION

As a further precaution, UV light disinfection is added to deeply cleanse/disinfect classrooms with reported health-related ones, creating a safe environment.

Sacred Heart Academy of Pasig (SHAP) is committed to ensuring the safety and well-being of all students and employees by strictly adhering to established regulations within classrooms and throughout the school premises. The school continuously monitors the health and behavior of its community to promote better focus, healthy habits, improved academic performance, and sustained energy during various activities and events.
